2016 - 2021 Selected Works

About Me

Hello.

My name is Muhammad Hussain Al Farizi Taufiek (Hussain). I'm a fresh graduate ready to get into the world of the professional career. I am a highly motivated, and ambitious individual with experience in graphic design, motion graphics, wordpress and UI/UX design.

I always strive to achieve the highest standard possible and I'm accustomed to working in a challenging and fast-paced environment. This portfolio will present about my works as a graphic designer. I hope you enjoy it, thank you!

Muhammad Hussain Al Farizi Taufiek

D.O.B: 01 January 1998

Hometown: Bekasi, Indonesia

katharsis katharsis katharsis

Catharsis or Katharsis, is the purification or purgation of the emotions (especially pity and fear) primarily through art. In criticism, catharsis is a metaphor used by Aristotle in the Poetics to describe the effects of true tragedy on the spectator.

Inovasi Teknologi Kit Diagnostic DBD

Sebagai penyedia solusi teknologi, Pusat Pelayanan Teknologi (Pusyantek) BPPT berupaya mencari solusi permasalahan nasional tersebut dengan mengembangkan Kit Diagnostik Demam Berdarah Dengue (DBD) berbasis Teknik Imunokromatografi dengan menggunakan anti - NSI Antibodi Monoklonal. Antigen NSI merupakan glikoprotein yang dihasilkan (itih virus dengue pada hari pertama hingga kelima pasca terjadinya infeksi. Antigen NSI diketahui memiliki aplikasi besar dalam serodiagnosis infeksi dengue karena disekresikan dalam konsentrasi yang cukup tinggi dalam plasma atau serum penderita DBD. Kemunculan antigen NSI lebih awal dibandingkan antibody anti - dengue, maka pendeteksian penyakit menggunakan antigen tersebut jauh lebih efektif dibandingkan dengan pendeteksian antibodi IgG/IgM.

Keunggulan Produk

Mendeteksi Dini dan Non Dini Penyakit Demam Berdarah Dengue

Antigen NSI memiliki konsentrasi tinggi pada plasma atau serum penderita DBD sehingga jauh lebih efektif dibandingkan dengan pendeteksian Antibodi IgG/IgM.

Hasil yang Diperoleh Lebih Cepat

Dengan menggunakan Kit Diagnostik Demam Berdarah Dengue (DBD) ini, hasil yang diperoleh relatif cepat yaitu sekitar 2 menit sampai 10 menit.
